# Bead Keder

- Easy to fold, transport & store
- Strong & Durable
- Less friction while sliding through the rail

## Applications

# Bead Keder Technical Data Specifications

<b>Plastic Element</b>	Raw Material	POM / PA (Nylon)			
	Color Available	Black / White			
	Size Available	7.5mm	9mm-in development	11mm	13mm-in development
	Rail Diameter	8-10mm	10-11mm	12-13mm	14-15mm
<b>Fabric/Narrow Tape</b>	Raw Material	PES / PP			
	Color Available	Black / White			
	Way to Attached	Weldable / Stitchable			
	No. of Flaps	1 Flap // 2 Flaps			
<b>Tech Features</b>	Lateral Steangth One Element	7.5mm	9mm-in development	11mm	13mm-in development
		60 kg	75 kg	100 kg	150 kg

- Note:
- Plastic Elements - Different gaps between the elements are available
  - Tape - Variety of tape width is available
  - Any other specification can be discussed under MOQ

<b>Plastic Element</b>	Raw Material	POM / PA (Nylon)	
	Color Available	Black / White / Other	
	Size Available	Fit to Customer Rail	
	Replacement Tooth/Element	In Development	
<b>Fabric/Narrow Tape</b>	Raw Material	PES / PVC / PP	
	Color Available	Black / White	
	Way to Attached	Weldable / Stitchable	
	No. of Flaps	1 Flap // 2 Flaps	
<b>Tech Features</b>	Lateral Steangth One Element	Over 90 kg Per Element	
	Running Test (No. of Cycle)	3,000 Times	

- Note:
- Plastic Elements - Different gaps between the elements are available
  - Tape - Variety of tape width is available
  - Any other specification can be discussed under MOQ
